Reviews - FRINGE 2002

Fringe 2001

# Blair Watt

Blair is confused and worried by the absurdity & meaninglessness of life, the relentless march by science & how to make sense of a world where numerals and vegetables appear randomly with no apparent order.

**Compelling character act  
- not so much stand-up  
as stand out!  
You won't see anything  
else quite like this!**

## Ian Watt

actor/comedian/writer

**Quite frankly, a bit scary**

The Scotsman

**A very unusual stand up with  
the onstage persona of a mentally  
unstable bald ranter.**

**A memorable guise.**

The Stage
